

## Customer Comments about Shear Fuzion product

Enrico is the reason I go to a barber's now and not Great Clips or Supercuts. Shearfuzion really gets the job done, I highly recommend it.

Rico is the man ! Always a great cut. Forget the big chains, nothing like the personal service Rico provides, just like the old neighborhood barber...but more!

My sister-in-law cuts hair in Boston. Just bought her a pair for Christmas and she absolutely loves them!! She's recommending them to the employees in the entire salon. Props to me for a good xmas present!

I've been going to Enrico's for over 25 years with a small break in there because I moved out of the area and my wife would cut my hair. Since the divorce, i couldn't trust her with scissors anymore so i travel 30 minutes for a cut. It's worth the drive! Great cut, great price, and even faster with the Shear Fuzion.I highly recommend Enrico and his Shear Fuzion!

Every other barber I've ever gone to has made some sort of mistake in cutting my hair - not Enrico - he is the best.

I've had cuts with shear fuzion - it really works well. Also, it is very ergonomic and helped someone who had carpal tunnel syndrome recover and continue cutting hair.

Just got the enrico cut today....the shearfuzion was awesome. he cut my hair in ten minutes and I had quite a mop of hair. I don't know much about cutting hair, but if I were a hairstylist I would want my customer to experience this product. Not to mention Enrico is sweet
